

Trying to Reduce Sugar Costs?

The SugarShot 2.0 can help!

The SugarShot 2.0 will make it easy for restaurants and convenience stores to hit that sweet spot between building brand loyalty and improving operational performance and efficiency. Designed to help your business serve up exceptional coffee quality and consistency, this portion-control sugar dispenser will enable you to provide the ultimate guest experience – every single time.

And you'll save money too! Reduce overall sugar consumption by up to 35%, eliminating waste and overuse. There's no need to look any further for a sugar dispenser that meets your needs; the SugarShot 2.0 will enable your customers to enjoy great tasting beverages. Period.

The SugarShot 2.0 offers the following additional features and benefits:

ACCURATE SUGAR DISPENSING

- Guests get the right amount of sugar each time, and operators control sugar usage and cost.

COMPACT FOOTPRINT (6 INCHES)

- Takes up minimal space on the coffee bar.

16 LB. SUGAR CAPACITY

- A large capacity means less refills for employees.

AUGER TECHNOLOGY

- Sugar clumps don't stand a chance. The auger always delivers the correct amount of sugar.

EASY-TO-USE BUTTON PANEL

- A single touch of a button creates most beverages – including those requiring half, single, and

multiple packets of sugar.

EASY-TO-REMOVE PARTS FOR CLEANING

- Parts can be removed without tools.

NO MONTHLY TUBE CHANGE

- This dispenser is easy and affordable to maintain.

PROGRAMMABLE

- Software updates and menu changes via USB are a breeze.
